Dear Hiring Manager,

I am writing to apply for the position of Frontend Engineer at Future Forex. With 14 years of experience in the field, I am confident in my ability to add significant value to your team.

Here are some key points highlighting the value I can bring to the table:

- Expertise in front-end development: As a Senior Front End Developer for the past 10 years, I have gained extensive knowledge and experience in developing user-friendly and visually appealing websites. I have a strong understanding of front-end fundamentals and I am skilled in using various frameworks and libraries to optimize web performance and enhance user experience.
- Proven track record of delivering high-quality projects: Throughout my career, I have successfully completed numerous projects, consistently meeting and exceeding client expectations. I am proficient in collaborating with cross-functional teams, following agile methodologies, and delivering projects within tight deadlines. My attention to detail and strong problem-solving skills have enabled me to consistently deliver high-quality work.
- Excellent organisation, communication and time management skills: I have a proven track record of working remotely in a disciplined fashion across distributed teams for a decade.

I believe that my personal skills, combined with my technical expertise, make me a valuable asset to any organization.

I am excited about the opportunity to contribute to Future Forex's success and would love to discuss how my skills and experience align with your company's goals. Thank you for your consideration of my application.

Sincerely,

Ryan Rudman
