## ◦ PROFILE ◦

Senior Front End Developer with 14 years of experience translating complex requirements into intuitive interfaces—balancing speed and quality across agency client work and startup product development.

A capable coder, excellent problem solver, independent worker, quick learner and good team player with a proven track record of delivery and remote work.

## ◦ EMPLOYMENT HISTORY ◦

### Senior Front End Engineer at Reservest, remote

Jun 2024 — Present

- Lead FE developer for a B2B luxury accommodation booking engine, working on complex UIs such as interactive map-based property searches, property booking panels, calendar itinerary builders etc. in a fast paced startup environment.
- Partnering with product, design and back end to turn requirements into shipped features; owning FE architecture, code quality and performance.
- Standardized on Angular + Tailwind, built a reusable component library and to improve reliability and velocity.
- Optimizing bundles and responsive UIs across devices.
- Using AI agents to quickly build out ideas and iterations of new feature sets for real testing and quick user feedback.

### Front End Developer (Freelance) at Discover Africa, remote

May 2024

- Created a proof of concept demonstrating a migration of an actual Wordpress based site to a NextJS front end with headless Wordpress and GraphQL.

### Senior Front End Developer at Kin & Carta, remote

Mar 2014 — Jan 2024

- Worked across multiple clients and projects ranging from content/data driven components to e-commerce sites to WebGL based applications.
- Worked closely with PM's and UX/designers, collaborated with cross-functional teams, following agile methodologies, and delivering projects within tight deadlines
- Implemented robust, responsive and performant UI's with cross-browser and cross-device compatibility.
- Made use of both popular and customized CSS and JS libraries and frameworks to ensure optimal web performance and user experience.
- Led the FE development across 4 projects - taking ownership of FE build, making tech stack and architectural decisions, assisting junior developers, ensuring code quality through regular reviews.

Notable clients include: *Toyota, Lexus, Asics, Trek, Unilever, Forevermark, Expedia, M&G Investments, Haglofs, Land Rover, NEFF*

### Front End Developer at Essential Travel, London

Oct 2012 — Mar 2014

- Worked on products catering for travel insurance comparison and booking services.

## ◦ EDUCATION ◦

### CertHE in Web Design Technologies, Birkbeck, University of London, London

Jan 2010 — Dec 2011
